

NASER ALLAHYANY

📍 Saudi Arabia | [🔗 LinkedIn](#) | [📁 Portfolio](#)

Professional Summary

Computer Science graduate with a strong foundation in software development and proven experience in UI/UX design. Eager to join a forward-thinking team where I can apply my skills and contribute to real-world projects in a fast-paced environment.

Education

BSc (Hons) Computer Science
Kingston University – London, UK
Graduated: 2025

Technical Skills

Languages: Java, JavaScript, TypeScript, Python

Frontend: HTML, CSS, React, Tailwind

Backend: Express.js, Django

Databases & Cloud: MySQL, PostgreSQL, Supabase, Firebase, AWS, Oracle APEX

Mobile: React Native, FlutterFlow

Tools & Platforms: Git, IBM Watsonx (Allam), Vercel, Azure

Design & Prototyping: Figma, Canva

Methodologies & Practices: Agile (Scrum), Debugging, System Optimisation

Projects

All-in-One Automotive Platform

Jul 2024 – Present

- Designed and developed a mobile app connecting car owners with local automotive service providers
- Built high-fidelity prototypes in Figma with a focus on usability and accessibility
- Developed using React Native for cross-platform support
- Integrated Supabase for real-time database and authentication
- Performed user testing and performance optimisation
- Technologies: React Native, Figma, Supabase

Aleem Teacher Assistant – SDAIA ALLAM Challenge

Sep – Nov 2024

- Built a virtual assistant to support Arabic teachers using the IBM Watsonx Allam AI model

- Led frontend development and API integration
- Designed authentication and UI components
- Deployed the solution using Vercel and managed data with PostgreSQL
- Technologies: Next.js, Allam AI Model, Prisma, Vercel, PostgreSQL

GrouPocket (Group expenses tracker App)

March - July 2024

- Designed a high-fidelity, interactive prototype for a mobile app that simplifies group expense tracking.
- Conducted user research and analysis to define app features and user flows.
- Created detailed wireframes and mockups focusing on intuitive navigation and a clean user interface.
- Developed a complete design system with component libraries, colors, and typography.

Future Creators (Brand guidelines and Visual identity design)

April - 2024

- A freelance project to build a modern visual identity for a construction company.
- Designed a new company logo, brand guidelines, and company profile.
- Created branded templates for Microsoft Word and PowerPoint to unify company documents.

Epass Design (All in One Entertainment Web app)

Nov 2022 - Feb 2023

- A university team project to design a centralized web app concept for entertainment events.
- Led the UI/UX design process, from initial wireframing to a final, polished prototype.
- Designed a responsive interface optimized for both desktop and mobile viewing.
- Created a comprehensive style guide to ensure visual consistency throughout the application concept.

Certifications

1. Agile Project Management – ILX Group
2. Project Sustainability Award – SDAIA ALLAM Challenge (with NTDP & IBM)
3. Cisco Packet Tracer – Cisco Networking Academy
4. UX Designer – Misk Skills [View Certificate](#)
5. Responsive Web Design – FreeCodeCamp [View Certificate](#)
6. AWS Academy Cloud Foundations [View badge](#)
